
Find the size of your bracelet.

 Print the document

1. Print the document in A4 format and make sure the page scale is set to 'none' in the print options.
2. Place your credit card and make sure it is exactly inside the shape.
3. If the measurement is not accurate, check that you are printing in 'full size' and reprint.
4. Be careful not to have selected the 'Fit to Page' print option.

 Cut the ruler and measure your wrist.

1. Cut the ruler.
2. Wrap the ruler around your wrist with the number side visible.
3. Slide the numbered end through the horizontal opening and pull until the ruler is snug against your skin.
4. The number aligned with the edge of the opening is the wrist measurement in millimeters.
